Dear Allison,

We would like to take this opportunity to thank you for taking Hot Wax to the next level! You definitely stuck true to your motto: Create. Communicate.

Over the last 6 months, just our wedding clients alone, have grown from 42 to over 100! We attribute this to our increased and focused marketing efforts that have made us **STANDOUT** from our competition. Our perspective clients, existing clients and our competition can now marvel at the way that Hot Wax has *polished the apple*...with our new e-stationary.

Our thanks and appreciation goes out to you as you were able to "get" the image we were aiming for. Talk about a seamless and effortless integration into our day to day email communication. After the design was solidified, you came and executed the custom set up. The whole experience was like pushing the EASY button from Staples!

We are thrilled to have met you thru BNI and are looking forward to evolving under your guidance and utilizing your services as the trends, styles and client communication needs change. We highly recommend your services and are proud to display your name on our communications.

Yours truly,

Ozzie Kipnes
